

Spring 2023 Seminar Series on College-Workforce Research

A conversation with Dr. Heather Fischer and Dr. Martin Storksdieck on assessing skills in postsecondary courses

WEDNESDAY, FEBRUARY 22, AT 1:00 PM CST (Online)

Register for this webinar at: <https://bit.ly/CCWT2-22>

Dr. Heather A. Fischer is a senior researcher at the STEM Research Center. Before coming to the center in July 2018, Heather completed a Ph.D. in Geography at Arizona State University in the School of Geographical Sciences and Urban Planning. Currently, Heather is working on multiple NASA, NSF, and USDA-funded projects and is partnering with researchers internal to OSU (including the Oregon Bee Atlas) and external (including with NASA and SciStarter). Heather's research interests include data quality of volunteer-collected data, developing citizen science and informal learning programs with diverse groups of participants, evaluating the use of citizen science data for scientific research, and open access to volunteer collected data.

Dr. Heather Fischer,
Oregon State University
STEM Research Center

Dr. Martin Storksdieck
Oregon State University
STEM Research Center

Dr. Martin Storksdieck is the director of Oregon State University's STEM Research Center, and a professor in OSU's College of Education. The Center consists of a team of dedicated professionals of various disciplinary backgrounds who conduct applied research on STEM education and science engagement at the intersection of research, policy, and practice, with a strong focus on equity and social justice. His aim is to align understanding of how all people learn throughout the lifespan, in formal and informal settings with evidence-based strategies for STEM engagement and STEM education. Martin has more than 25 years of experience with educational research and evaluation in STEM-related fields, and in environmental and sustainability education.

Click the link above to register, and join the conversation on February 22nd, with Dr. Fischer, Dr. Storksdieck, & CCWT's Dr. Matthew Hora!

The Center for Research on College-Workforce Transitions (CCWT): Our mission is to develop research tools, evidence, and educational programs that promote the career development and wellness of students as they seek post-graduate success. In this work, CCWT seeks to amplify the voices and interests of students of all ages, especially those historically marginalized in higher education, with the ultimate aim of facilitating institutional and societal change.
